3 Description

u-blox DAN-F10N patch antenna module has reached the engineering sample (ES) status.

DAN-F10N is built on the u-blox F10 dual-band GNSS technology using L1/L5 GNSS bands, providing robust meter-level position accuracy in challenging environments.

DAN-F10N integrates a compact 20 x 20 x 8 mm L1/L5 dual-band patch antenna, providing customers with a turnkey solution for rapid time-to-market while minimizing design and manufacturing costs.

Related documentation is published on u-blox.com.

4 Schedule

DAN-F10N engineering samples are available as of May 2025.
